

# INDU SRI BOPPUDI

Aspiring Software Engineer | Tech Enthusiast | Solution Seeker

@ indusriboppudi@gmail.com    7842474426    Hyderabad, India  
in https://www.linkedin.com/in/boppudi-indu-sri-b2b5b1245/

## CAREER OBJECTIVE

- A Talented Final Year B.E student with a strong academic background with the ability to think through a problem coupled with the confidence to make ideas heard.I am currently looking for a internship opportunity that will allow me to work alongside an expert team of talented individual's .

## PROJECTS

### Human irish centre detection

July 2022

- The Human Iris Recognition Center project leverages cutting-edge biometric technology to enhance identity verification through iris recognition. This system utilizes a Convolutional 2D Neural Network (CNN) to capture and process intricate patterns within human irises, enabling highly accurate and reliable identification. By applying CNN models, the project aims to enhance pattern recognition, delivering rapid, secure authentication that can be used in various applications, such as access control and identity verification. This innovative approach offers a scalable, high-precision solution for modern security needs .
- software-skylearn,python,java,torch vision library

### News Agregator web application suing python

July 2023

- The News Aggregator Web Application is a Python-based platform that gathers news from multiple sources into one place. Users can browse, search, and filter articles by category, like technology or sports, and save their favorites. Built with Python and a web framework like Flask or Django, this app makes staying updated on current events easy and personalized .
- Tool Flask,pyhton,HTML/CSS

### Serverless health care tele medicine using AWS

may 2024

- The Serverless Healthcare Telemedicine Application utilizes AWS services to provide a scalable and secure platform for remote healthcare. By leveraging AWS Lambda for backend processing and Amazon API Gateway for request handling, it enables patients to connect with healthcare providers via video consultations, schedule appointments, and access medical records. This solution offers an efficient and cost-effective approach to telemedicine, ensuring reliable and HIPAA-compliant care.
- Tools - Java , AWS,PYTHON

## INTERNSHIPS

- Was a Summer Intern At Indain server Pvt Ltd.

## ACHIEVEMENTS

- Achieved high scores in the "NPTEL: The Joy of Computing" project, demonstrating strong programming proficiency in Python

## AREA OF INTEREST

- Software Developer
- Data Analyst
- Machine Learning Engineer
- AI Developer

## TECHNICAL SKILLS

- Problem Solving
- Competitive Coding
- Data Analysis
- Basics Of Data Structures
- Basics Of Machine Learning

## PERSONAL SKILLS

- Self Starter
- Flexible&Adaptable
- Leadership
- Communication

## LANGUAGES

- C & C++
- Python
- R
- Java
- HTML/CSS
- SQL
- bootstrap

## EDUCATION

B.E in Computer Science Engineer- ing

74.95%

2020-2024

ST,ANN's College Of Enng Te

HSC (12th)

96.5%

2020

Sree Gowthami junior college

SSc (10th)

9.8gpa

2018

M.R.R High School

## CERTIFICATIONS

- NPTEL Certification in programming Java and python

Led the development of a Human Iris Recognition System using Convolutional Neural Networks (CNNs), significantly improving identification accuracy
